

# Deer Resistant Plants For The Northwest

Deer resistance of plants varies from area to area and from deer to deer. The availability of other preferred forage will determine whether deer will browse these plants. When forage is sparse, deer may eat practically any plant.

## SHRUBS

Bamboo  
Barberry  
Bog Rosemary\*  
Boxwood  
Broom (Cytisus)  
Bush Anemone\*  
Butterfly Bush  
California Lilac
